

Cuboid LLC — Services One Pager

Premium web, mobile, and custom software built for growth.

Who We Are

We are a remote native product engineering team partnering with founders and enterprises to ship measurable outcomes. We focus on performance, accessibility, and long term maintainability.

Core Capabilities

- Web: High performing marketing and product sites (Angular, React, Vue).
- Mobile: Native iOS & Android or Flutter/React Native where it fits.
- Custom Software: Secure, scalable platforms and internal tools.
- Brand & Growth: Product UI/UX, design systems, and SEO & marketing.

Engagement Models

- Fixed scope projects for clear deliverables and timelines.
- Dedicated squads to augment your in house team.
- Retainers for ongoing product iteration and growth.

Delivery Process

- Discovery !' Architecture !' Design !' Build !' QA !' Launch !' Iterate.
- Transparent weekly demos, roadmap updates, and velocity tracking.
- Secure by default: MFA, least privilege, secrets management, SAST/DAST.

Tech Stack Highlights

- Frontend: Angular, React, Vue, Tailwind CSS.
- Backend: Node.js, Python, PostgreSQL.
- Mobile: Swift, Kotlin, Flutter.
- Cloud & DevOps: AWS, Docker, CI/CD.

Case Study — Aris360 (Real Estate)

Problem: Fragmented tools and legacy workflows slowed listing operations.

Solution: Modernized platform with secure auth, performance focused frontend, and scalable APIs.

Impact: Improved reliability and time to ship while reducing operational friction.

Let's build something remarkable
